

EDUCATION SCOPE

EMPOWERING DEVELOPERS FOR THE FUTURE

# WHO WE ARE

We are a National team of Software Developers and Educators who are PASSIONATE about empowering Coders for the future.

We celebrate diversity in tech and development by looking to engage everyone, from all walks of life to become Coders.

Building the Brisbane Tech Community is important to us as we look to engage in more events and areas with our growing cohorts of passionate students.

# WHAT WE DO

Coder Academy is working hard to help develop local Australian tech talent.

Our 6 month, Fast Track Bootcamp continues to produce amazing industry ready talent and we have 90+ junior developers who started in Feb 2019 in Sydney, Melbourne and Brisbane. They will be ready to head out to internships in companies like Australia Post, JB Hi Fi, IOOF, Qantas, Westpac and key companies in the startup scene in Brisbane.

We piloted a 12 month part time, accredited Software Development Bootcamp last year in Sydney (GenTech Bootcamp) and the results were so good that we launched a new cohort in Sydney, Melbourne and Brisbane in March 2019. Our students are range from parents returning to the workforce to recent school leavers. We have nearly 60 students enrolled in this program.

MYOB are using Coder Academy 6 month Bootcamp as the training mechanism to drive diversity as part of their Future Makers Academy.

We have just kicked off the Australia Post Tech Academy within Australia Post - a 12 week Bootcamp program to upskill non technical people as efficiently and effectively as possible. This is a program that has been specifically designed to meet the needs of the Australia Post Technology Teams. We have also been working with other large financial institutions to help retrain their staff to drive agility, innovation and reduce redundancy costs.

We run a large number of events to drive diversity and improve the understanding of tech careers for young people and have a large range of K-12 programs for teachers and students across Sydney, Melbourne and Brisbane.
